

AUTOMATIC ARCH MACHINE FOR HEAVY-DUTY APPLICATIONS

THE PC9800

With extra-wide arch sizes and robust construction, Greenbridge's PC9800 is designed for precision-controlled strapping speed and tolerances of larger products like collapsed cartons, lumber, windows and doors, and automotive components. The PC9800 accommodates polypropylene or polyester strapping which allows you to secure a variety of applications.

This is a high-performing machine and a Greenbridge favorite for securing big loads.

- Extra-wide arch sizes 88" – 135"
- Higher speed + tighter tolerances with Mitsubishi PLC
- Application flexibility with PET + PP strap options
- Simpler operation with user friendly HMI touch control
- Positive feeding with two arch assist motors

HIGH PERFORMER IN THESE INDUSTRIES!

ABOUT GREENBRIDGE

Founded in 1974 as Polychem, we rebranded in April 2021 as Greenbridge to reflect our commitment to providing proactive solutions to customers across North America seeking to achieve more sustainable, high-performing operations. Our early reputation was based on our quality polyester, polypropylene and cord strapping. Today, years of growth and strategic acquisitions have made Greenbridge a leading end-of-line packaging supplier, with integrated solutions that encompass tools, equipment, systems, and services that help tame the most challenging supply chains.

Greenbridge is committed to the safety of our team, the quality of our products and services, investing in continuous improvement, advancing the circular economy, and fostering sustainable customer success.
