

# STRAPPING SOLUTIONS FOR CAN + BOTTLE

## EQUIPMENT, HEADS, TOOL + STRAP

# THE #1 CONCERN OF THE CAN + BOTTLE INDUSTRY? DISRUPTED LOADS.

Your worst nightmare? Pallet loads of cans or bottles that shift, buckle, or fail on the dock, warehouse, production floor, or in transit. It's a waste of time and money. In many cases, it's also avoidable.

The best way to ensure your loads remain strapped, wrapped, and secured across the supply chain is to deploy a Greenbridge strapping system of equipment, heads, strap, and tools specifically engineered for the can and bottle industry.

Our equipment is specifically engineered to handle the bulkiness of glass and the featherweight of plastic and aluminum.

To determine the right solution for your operation and can and bottle products, talk to a Greenbridge sales representative. We're long on technical knowledge and real-world experience — exactly what you need to get the job done right. We can recommend the right equipment and tools, then train your people on proper, safe usage. We'll also help you select strap with the right break strength, shock absorption, and initial and retained tension characteristics.

We'll also support you across the life of your equipment with maintenance programs, repairs, and helpful advice.

**Disrupted loads? Get rid of them with Greenbridge.**

# PCBU/PSSU SIDE SEAL

## ■ Electronic Compression System

Compression PET bottles/metal cans: 2000 lbs.

Compression glass bulk loads: 4000 lbs.

## ■ Pallet Void Feeder

Roller-driven pallet void feeder automatically feeds strapping through the pallet voids at controlled speed thanks to servo technology.

## ■ Strong Extruded Aluminum Frame

Designed for over double the rated compression.

## ■ Stainless Steel Track System

Tight design provides reliable strap feeds + decreases maintenance costs.

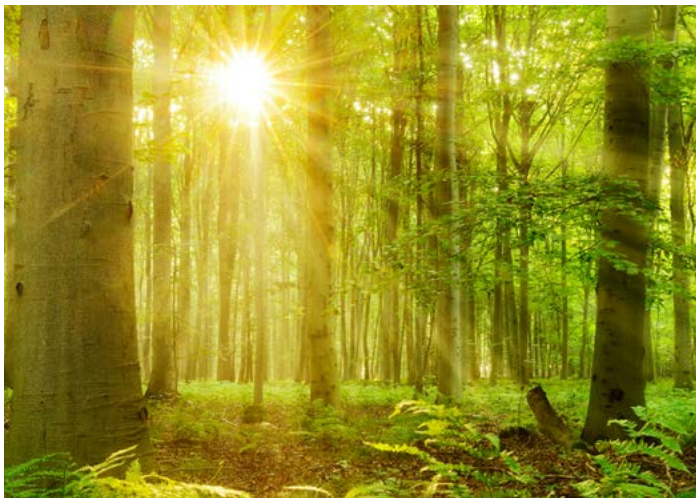

## ■ Electrical Box with Numbered Wires

Flexible design allows for future wiring in options.

## OPTIONS

- Touch screen control panel
- Test stand with spare head

## WE MAKE IT EASY TO BE GREEN. AND REDUCE YOUR RELIANCE ON LANDFILLS.

Protecting the health of our world is important to all of us—our customers, stakeholders, communities, and team members. Greenbridge offers a full range of strap and cornerboard made of recycled material that can also be recycled after use. We'll even take it back. We also partner with customers on sustainability solutions that identifies opportunities in your operations to capture recyclable or reusable material and replace single-use packaging with recyclables.

# PTTS TRAVERSING TOP SEAL WITH ROTATING TURN TABLE

## ■ Your Load Never Moves

System automatically lifts + turns the load to facilitate application of primary + cross straps.

## ■ Electronic Compression System

Compression PET bottles/metal cans: 100 lbs.

Compression glass bulk loads: 6000 lbs.

## ■ Patented Modular TR Head

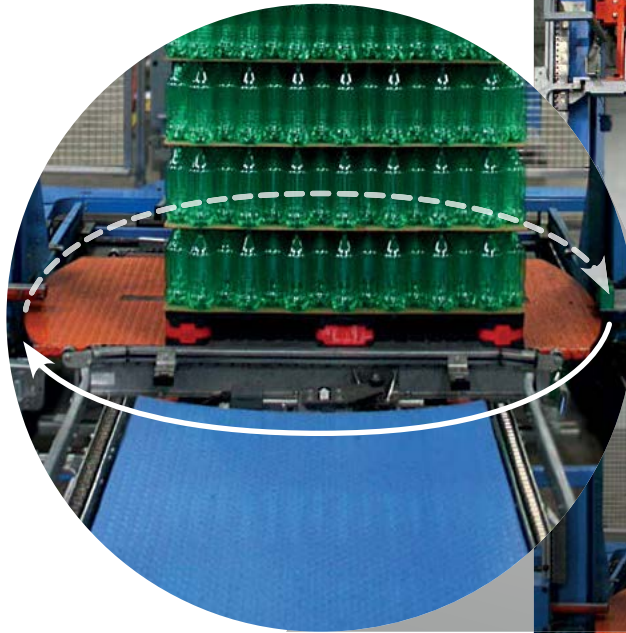

Automatically launches, recovers, tensions, welds + cuts strap.

## ■ Sturdy Electro -welded Steel Frame

Designed for over double the rated compression.

## ■ Touch Screen Electrical Panel

Supports complete automatic function of the machine, with controls for manual operation.

## OPTIONS

- Available with single + dual heads
- Telescope track
- Lift + turn/rotating table

## Service After The Sale It's What We Do. Gladly.

Greenbridge is happy to provide training, maintenance, and repairs on every tool that we sell. We also fix our competitors' equipment and tools. So if your tool isn't performing as it should, we want to know about it.

# START WITH THE RIGHT STRAP FOR CANS + BOTTLES

- High-performance polyester delivers strength + stretch resistance
- Can pull the same tension and achieve greater retainer tension up to 20% based on the application
- Extra-long length coils for fewer changeover are available
- Scrap + used strap can be recycled. Talk to us about closing the loop!

## GREENBRIDGE STRAPPING HEADS DELIVER PROVEN, RELIABLE TENSIONING, 3X LESS MAINTENANCE

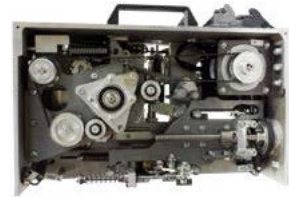

**TR1400**  
FOR METAL CANS +  
PLASTIC BOTTLES

- Heat seal technology
- Modular design
- Rapid changeover time
- Max feed + recovery speed: 10' per second
- Strap tension up to 500 lbs.

**TR1800**  
FOR GLASS  
BOTTLES + JARS

- Heat seal technology
- Modular design
- Rapid changeover time
- Max feed + recovery speed: 10' per second
- Strap tension up to 900 lbs.

**SX600**  
NEW! LIGHTWEIGHT,  
1-PERSON HANDLING

- Ultrasonic sealing technology
- 75% lighter — just 45lbs.
- One-minute changeover time
- Max feed + recovery speed: 18' per second
- Strap tension up to 340 lbs.

**NEW!  
EVOLUTION LT**  
SMART STRAPPING TOOL

This lever-free, fully automatic, battery-operated strapping tool with Bluetooth technology for smart device setup. It's lighter, faster, safer, and gets to the desired tension faster than other tools!

**HEAVY-DUTY  
STRAP DISPENSER**  
EFFICIENCY BOOSTING

These rugged dispensers are easy to load. The all-mechanical design simplifies the mechanism, which makes loading new rolls of strap quick and reduces pauses for changeovers.

**SAFETY IS  
OUR PRIORITY**  
PROTECTING YOUR PEOPLE

Self-engaging brake requires power to allow the patten to move. During a power loss, the brake automatically engages, stopping the machine.

# LET US SECURE YOUR BUSINESS. WHILE YOU DO YOU.

Greenbridge is a preferred supplier to the can and bottle industry of more than just strap. Through our new **GB+** program, we provide you with the best equipment, tools, and consumables like strap and cornerboard plus technical service and support that helps keep your manufacturing operation running at optimal levels. There's also a sustainability component to reduce reliance on landfills and increase recycling opportunities. Did we mention you save time and money?

*Oh yeah! There's that!*

## GB+ GIVES YOU ACCESS TO GREENBRIDGE'S INTEGRATED PORTFOLIO OF PRODUCTS AND SERVICE

**Strap + Cord**

**Accessories**

**Hand + Automated Tools**

**Parts + Service**

**Equipment**

**Cornerboard**

## ABOUT GREENBRIDGE

Founded in 1974 as Polychem, we rebranded in April 2021 as Greenbridge to reflect our commitment to providing proactive solutions to customers across North America seeking to achieve more sustainable, high-performing operations. Our early reputation was based on our quality polyester, polypropylene and cord strapping. Today, years of growth and strategic acquisitions have made Greenbridge a leading end-of-line packaging supplier, with integrated solutions that encompass tools, equipment, systems, and services that help tame the most challenging supply chains.

*Greenbridge is committed to the safety of our team, the quality of our products and services, investing in continuous improvement, advancing the circular economy, and fostering sustainable customer success.*
