

GREENBRIDGE

High Performance Unitizer Sheet Polyester Strapping

Greenbridge's Sheet Polyester: Unrivaled Quality, Unmatched Performance

Why choose sheet polyester from Greenbridge?

Cutting-Edge Technology:

Our sheet polyester strapping production goes toe-to-toe with the competitor's process, ensuring top-notch **quality and reliability**.

Precision and Control:

Enjoy a consistent product everytime with exact **width control, uniform thickness, and square edges** for seamless packaging solutions.

Enhanced Production:

With biaxial orientation, experience increased production efficiency with **less camber and the ability to stretch in both directions**.

Secure Seal:

Our friction seal strap guarantees a **reliable and sturdy seal** for your packages.

Features + Benefits

Reduced Dusting:

Our proprietary wax reduces dusting, minimizing equipment maintenance and downtime.

Optimized Tension:

With better retained tension than the competition, your products stay secure during transit and storage.

Supply Chain Advantage:

As one of only two sheet polyester manufacturers, we offer a streamlined supply chain for consistent availability.

Sustainable Solution:

Made in the USA's largest PET recycling facility, our strapping is environmentally friendly without compromising performance.

Single Strap Efficiency:

Our embossed sheet strapping (161E model) requires only one strap, saving you time and resources.
