

While our early reputation was based on our quality **polyester, polypropylene, and cord strapping**, years of growth and strategic acquisitions have made Greenbridge a leading protective packaging supplier, with integrated solutions that encompass equipment, systems, tools, strap, cord, corner board, accessories, and services that help ensure load integrity across the most challenging supply chains.

## One Stop Solution

Experience our full line of strapping products, coupled with innovation and industry expertise. Our products and seasoned industry specialists focus on quality and efficiency for your business. Let Greenbridge be your one-stop shop for packaging solutions and strapping needs.

 **GREENBRIDGE**  
YOUR BRIDGE TO **BUNDLED**

# Unbeatable Availability

With our robust supply chain and extensive inventory, Greenbridge guarantees that the products you need are always available when you need them, minimizing downtime and maximizing productivity.

## Made to Stock

MTS products are items for regular stock replenishment and should be available at Greenbridge. These products are estimated to ship in 5 calendar days or less.

## Made to Order

MTO products will be produced upon receipt of a firm customer sales order only. These products are expected to ship within 35 calendar days from order confirmation.

## Made to Agreement

MTA products will be produced and shipped as per agreement with the customer.

# Support

When you choose to work with Greenbridge, you work with an expansive team of solutions providers.

Our sales professionals, inside sales representatives, service technicians, and customer service team members are ready to answer questions, provide support, service your tools & equipment, and place your orders when you are ready.

Need training assistance? We provide hands on product training to your sales team and service training for your technicians.

# Quality

At Greenbridge, we conduct 18 quality checks to ensure we deliver product that exceeds your needs and expectations:

- Break Strength
- Width/Thickness
- Gram Weight
- Camber
- Splitting
- Color
- Coil Length
- Coil Weight
- Coil Geometry
- Stiffness
- Elongation
- Surface Friction/Slip
- Surface Treatment
- Surface Hardness
- Physical Appearance
- Embossing
- Core Extension
- Seal Joint Efficiency

# Creativity

We listen to our customers and develop easy to implement programs that allow you to focus on the growth of your business.

Ask us about how our GB+ and GB+ Care programs can help.

# Expertise

Our team is comprised of seasoned industry professionals who bring unparalleled expertise and insights to help you choose the best strapping for your specific needs.

Our organization prioritizes training and product knowledge so you can be sure we are recommending ideal and innovative solutions for your packaging challenges.
