

ROBUST, BATTERY-POWERED, FRICTION WELD TOOL

THE B800i

Facing a long day of securing loads? Do more with less effort with the B800i battery-powered friction weld tool capable of pulling up to 850 pounds of tension. No special change parts are required to adjust for strap width or thickness. The 18V lithium-ion battery delivers more power in a lighter package, making your tools easier to handle without sacrificing performance.

POWER PLUS!
The B800i pulls up to
850 lbs. of tension

FEATURES

- Portable, easy to use
- High tension, one-hand operation
- Lithium polymer quick-charge battery
- PET strap sizes: 5/8" – 3/4", .025-.040
- 80% joint efficiency

Service Is Everything

Your B800i not working as it should? Contact Greenbridge. We'll service your tool and get it back up and running.

It's what we do. Gladly.

INTRODUCING GB+

When Greenbridge supplies and services the strapping side of your business you can focus on fueling the growth of your business.

With GB+ on your side, your Capex funds no longer need to go to tools and equipment. You prioritize your dollars on product development, sales, marketing, manufacturing, and innovation.

Greenbridge's GB+ program can be customized to solve for your equipment challenges, maintenance demands, consumables constraints, and sustainability objectives.

It's easy to find a supplier to sell you a tool.

It's another thing to find one eager to provide service after the sale.

Talk to Greenbridge.
