

**SECURING YOUR BUSINESS IS OUR PRIORITY**

### INTRODUCING GB+

When Greenbridge supplies and services the strapping side of your business you can focus on fueling the growth of your business.

With GB+ on your side, your Capex funds no longer need to go to tools and equipment. You prioritize your dollars on product development, sales, marketing, manufacturing, and innovation.

Greenbridge's GB+ program can be customized to solve for your equipment challenges, maintenance demands, consumables constraints, and sustainability objectives.

### GREAT BENEFITS WHEN YOU ACCESS GB+

-  Keep your Capex dollars for business growth initiatives
-  Gain access to the best strapping equipment and tools in the industry
-  Reduce the bottlenecks caused by PP and PET strapping and accessories availability
-  Priority maintenance delivered by Greenbridge technicians keeps your equipment up and running
-  Expedited onsite service calls reduce your down time
-  Reduce your dependence on landfills, increase reuse and recycling, meet and exceed sustainability goals
-  Customize the program to focus on what matters most to your organization

### WE HAVE A BETTER ALTERNATIVE

As an industry leader in end of line packaging solutions let us secure your business and maintain your equipment.

When you participate in GB+ you are eligible to secure priority preventative maintenance with our GB+ Care Program for all your tools. **Ask your Sales Rep how to get started.**

## UNLEASH THE POWER OF LITHIUM-ION TECHNOLOGY

Greenbridge is excited to introduce our latest innovation: the same reliable tools you know and trust, now powered by commercially available lithium-ion batteries. These new batteries give you the flexibility, power, and independence to keep your operations running at peak performance — and they're available through a wide range of suppliers, giving you freedom like never before.

### WHY LITHIUM-ION?

#### 1. Commercial Availability

- **No longer limited** to purchasing batteries through Greenbridge — lithium-ion batteries are widely available through numerous suppliers.
- **Easily source replacements** or spares, reducing downtime and keeping your tools powered up when you need them most.

#### 2. Power You Can Trust

- **Higher Energy Density:** Lithium-ion batteries deliver more power in a lighter package, making your tools easier to handle without sacrificing performance.
- **Longer Lifespan:** Expect more charge cycles and better battery life, so your tools spend less time on the charger and more time in action.
- **Fast Charging:** Get back to work quickly with lithium-ion's faster recharge time.

## Lead the Pack

with Li-Ion Power and experience the strength, reliability, and dominance that only Greenbridge can deliver.

#### 3. Durability in Tough Conditions

- **Superior Temperature Performance:** Lithium-ion batteries excel in a broader range of temperatures, ensuring peak performance in hot or cold environments — ideal for demanding job sites.
- **Low Self-Discharge:** These batteries maintain their charge longer when stored, meaning your tools will always be ready when you are.

**ALLOW US TO ENSURE YOUR UPTIME**

# KEY FEATURES

■ **Compatibility:** These new lithium-ion batteries work with many of the Greenbridge tools you already use.

- B300
- Evolution LT
- Evolution HT
- SB8400
- SB8500
- BC2040

■ **Lightweight Design:** Easier to carry and maneuver, reducing operator fatigue during long shifts.

■ **Faster Charge Time:** Minimize downtime with rapid recharging.

■ **Commercial Availability:** Widely available batteries mean you have the flexibility to source replacements and spares anywhere.

# IMPACTED TOOLS

## Lead the Pack with Li-ion Power!

Greenbridge tools with lithium-ion batteries will help you dominate the jobsite. Join the pride and experience **lion-level** strength and flexibility today.

For more information or to place an order, visit:

**Greenbridge.com** or contact your Greenbridge representative.

# KEY BENEFITS

## 1. Efficiency & Flexibility

■ With commercially available lithium-ion batteries, you have the power to keep your tools running smoothly without relying on proprietary batteries. Access batteries anytime, anywhere.

## 2. Improved Productivity

■ Spend less time waiting on battery recharges and more time getting the job done. Faster charging and longer-lasting power mean your tools are ready when you are.

## 3. Reduced Costs

■ Commercial availability of lithium-ion batteries allows you to choose competitively priced options, leading to cost savings on replacements over time.

## 4. Power That Lasts

■ Experience the unmatched performance of lithium-ion batteries that deliver more power with less weight, helping you work more efficiently with fewer interruptions.
