

## SOLUTIONS FOR BUNDLING

### AM650/AM659 AUTOMATIC STRAPPING MACHINE

The AM Series can operate using 5mm - 12mm wide plastic strap. Because of its ability to use many sizes of strap the AM Series enables customers to choose the best plastic strap for their budget and packaging requirements. The AM Series has many standard features that include automatic coil feed system, strap loop ejector, short feed detector, refeed system and precision electronic tension control. These user friendly features combine to increase strapping performance and reliability, as well as providing ease of operation for the equipment operator.

**Elevate your strapping efficiency – invest in the AM650/AM659 arch machine today!**

AM659AB // AM659C

### ABOUT GREENBRIDGE

Founded in 1974 as Polychem, we rebranded in April 2021 as Greenbridge to reflect our commitment to providing proactive solutions to customers across North America seeking to achieve more sustainable, high-performing operations. Our early reputation was based on our quality polyester, polypropylene and cord strapping. Today, years of growth and strategic acquisitions have made Greenbridge a leading end-of-line packaging supplier, with integrated solutions that encompass tools, equipment, systems, and services that help tame the most challenging supply chains.

*Greenbridge is committed to the safety of our team, the quality of our products and services, investing in continuous improvement, advancing the circular economy, and fostering sustainable customer success.*

**It's easy to find a supplier to sell you equipment.**

**It's another thing to find one who understands your business.**

**Talk to Greenbridge.**
